This Company proposes to furnish Call at the coat at Mines with a very low rate of transportation added; the difference in price at wholessle and retail will only be sufficient to cover the additional expense and waste incident to the latter trade. The prices given are for Coal on board out cars or from yard at depot. We are execting a scale at the depot on which all Coal sold at re ait will be carefully weighed, and 10 barrels or 1800 pounds of Coal furnished as a cartland. As soon as we perfect our arrangements, tickets calling for such loads will be placed on sale at the Company's Ticket Office, corner Main and Madison streets, also Cashier's office at depot. The price will for the present be: For 10 barrels or 1800 pounds of merchantable Kentucky Lump Coal, deliverable on our cars at dapat before September 1, 1822, 25.50. If consumers wish to secure tickets for delivery beyond that time and before May 1, 1883, we will self such tickets for \$3.23. Our Nut Co 1, which is specially adapted for steam and cooking purposes, we will furnish at 25 cents per load less. Special contracts will be made with manufacturers, dealers, or any person wanting by the carlead or more, delivered on cars at any point accessible by rail in the city. For the present we do not propose to deliver by cart or wayon, believing that we will by this course build up a lively company has adopted this method of placing this Coal on your market without any profit to themselves except such as may result from a low rate of transportation. If met by consumers in an appreciative manner, They Co E TO STAY; and while they reserve the privilege of a change in prices at any time, yet we believe we have named future minimum and maximum prices for Coal in Memphis. secure a permanent settlement of the debt they would not ask more than 50-3. That passed even by the present Legislature might stand. The people are tired of agitation and ready to begin the serious and practical work of paying something, provided their equities are recognized and that the whole pound of flesh is not demanded. It is suicidal to attempt to pay more than they can, even if there were no equities or grounds for abatement in the case. Another default of interest would be the result in less than five years, and then in a spirit of despair and resentment the people would become repudiators in dead earnest, and the State would be set back twenty years. A reasonable proposition would do more to foster a sentiment of State credit and encourage the people than all the tirades of abuse and hightoned moral homilies ever written, The 60-4-5- proposition is not liberal. In the first place it is more than we morally owe, and secondly it imposes too great a burden and a drain upon the producing forces of the State. The debtis say no less than \$32,000,000. At sixty cents on the dollar, this would be reduced to \$19,200,000. The interest on this, at 4 per cent, would be \$768,000 per annum. In three years, under the plan proposed, this ould amount to \$2,304,000. At 5 Handwerker and several others. per cent the interest would be \$960, 000 per annum, or \$4,800,000 in five years, as proposed, or \$7,104,000 to be paid out in eight years without reducing the principal; after that, at 6 per cent, the interest would be \$1,152,-000 per annum. That is what the people are asked to dig up and pay out, the most of it to go out of the State and be withdrawn forever from

I have no hesitation in saying that this is an exceptionably excellent fertilizer. In my judgment nothing better could be desired for general application to almost any crop. The mixing appears to have been carefully and thoroughly done, mechanical condition good. I have no doubt that the intrinsic value of your article will make for itself a file reputation in a short while. Your article is certainly safe, it cannot possibly injure any crop under any circumstances. It is comparatively so slightly ammoniated and with such materials that no possible danger can attend its use. I hope that you may be able in time to find ready safe for your goods, and that your enterprise may be successful. Indeed your goods would certainly sell classwhere, if not in your immediate section.
